Vircingetoris knows of this music group who is just a little too pumped. He sees, and hes heard through word, that it can be a standard take-out, in and out job.

Trouble is there are 6 of them in a middle upperclassincome sector and they think they are just the best, with all their bugs too.

There house has a driveway and a backway.

Vircingetoris takes on the role of a supposed salesman who is actually offering them a part is some more.'

Vircingetoris knocks on the door, the house explodes blowing him back to the neighbours house across the street.

In undercover underground nightaction he lard heavy explosive under the'r bleeding smiffling 2oses.
